Learn To Play – Ithute Go Tshameka

Learn to Play harnesses the power of play to provide high-quality and culturally-relevant early childhood education. We train and equip motivated Mamapreneurs to lead playgroups in their communities.

Kavimba Project

Learn to Play has been granted land to build a community play centre that celebrates the local Subiya culture and Kavimba community. The centre will be a safe space for children where parents are excited for their children to be on a daily basis. Regulators, stakeholders and partners will be able to visibly see the value of a community space like this.

Support Kavimba

We are delighted that the Rotary E-Club of Riddarfjarden is supporting Learn to Play. We need your help to build the centre. Support our **BUY A BRICK, BUILD THE FUTURE** campaign and have your name on the walls that will inspire the children of Kavimba. The centre will use sustainable building practices and visibly show the value of a play centre.
